

CURRUMBIN *MINERALS*

The mark, one colour, redrawn in clean vector.

Straight edges are true straight lines, the wordmark is set in its actual typefaces (Helvetica Neue Condensed Black and Bold Italic) as font outlines, and the CM keeps its original letterforms. Zoom in anywhere on this PDF.

Provenance

Faithfully redrawn from the company's current artwork: geometry rebuilt as straight vector lines, wordmark re-set in its original typefaces, CM letterforms preserved. The full colour original stays wherever it already lives.
